

**Dr. Sita Ping**

Dr. Sita Ping is a true Oregon - born and raised in Beaverton, and a graduate of Oregon State University. She earned her dental degree from Oregon Health and Science University School of Dentistry in 2017.

Dr. Ping's passion in public health began with a dedication to community service, which is why she is especially excited to be joining the Tooth Taxi team. Growing up, watching her parents strong involvement in the local Cambodia community inspired her to continue to make community service a priority. Some of her extracurricular involvement in dental school included Celebrations of Smiles at the Children's Museum, Student Research Group, and Delta Sigma Delta.

In her spare time Dr. Ping enjoys spending time with her friends and family, trying new restaurants, and planning birthday parties and get-togethers.

Fun facts:

- Dr. Ping is #3 of 4 girls in her family.
- If she couldn't work in health professions, she would be an event/wedding planner.
- She is not afraid of bees or spiders, but does not like slugs.
