

Wayne Radwanski, D.D.S.

Financial Acknowledgement

Our goal at South Austin Dental is to continue to provide our patients with the highest level of dental care possible. To do this we must coordinate covering the expenses of providing dental care with meeting your dental health needs.

We are a "fee for service" practice. For patients **without dental insurance**, payment for the total cost of any work done will be expected at the time of your visit. ****An annual interest rate of 13% will be added to any account carrying a balance. This will apply to a balance that insurance denied or did not cover in full.****

DENTAL INSURANCE

Your dental plan is designed to SHARE in your dental care costs. It may not cover the total cost of your bill. Most plans cover between 50 and 70 percent of dental services.

Filing dental claims is a courtesy that our office gladly extends to each patient. In order to continue to provide this service, we ask that all patients with dental insurance be prepared to make a payment each time services are rendered. A payment for one-third of the cost of dental treatment will be required at the time of visit for basic work. For all major work done a payment for half of the total will be required when the work is started with the balance being due at the final appointment. Any balance not paid by the insurance company after 60 days becomes the patients responsibility.

We will be glad to provide treatment plans to you and your insurance company or assist in any other way with the financial planning of your dental care.
