Diagnosis & Treatment of Periodontal Disease for the General Dentist & Hygienist

Kathleen Rueter, DMD, MS

5:30 – 6:00 pm Sign-In & Networking

6:00 – 9:00 pm Course

Location: Deschutes Brewery Public House (1044 NW Bond St., Bend)

3 Hours CE

Cost: ADHA Members – Free; Non-Member RDH, Dentists and Assistant = \$75

To Register: www.odha.org under the events tab or

https://www.odha.org/index.php?option=com_jevents&task=icalrepeat.detail&evid=25

***** THIS**

COURSE IS SOLD OUT ***

Course Description: The purpose of this course is to allow practitioners in the general office to properly diagnose periodontal disease based on the current classification system which was finalized in 2018. The course will also bring the attendees up to speed on the various treatment options that are available today. The following topics will be covered: diagnosis, risk factors, etiology, genetic testing, bacterial testing, systemic medications (antibiotics, antivirals, and anti-collagenolytic therapy), oral rinses, success rates of periodontal treatment, when to extract a tooth, relationship to systemic diseases and pregnancy, local delivery antibiotics, laser therapy, surgical therapy, peri-implantitis, maintenance protocols, case examples, how to communicate effectively, and how to make an appropriate referral.

Course Objectives:

1. Learn to correctly diagnose periodontal disease based on the current classification system.
2. Understand how to treat the patient as a whole person instead of a tooth/periodontal pocket.
3. Gain an understanding of all available treatment modalities so that practitioners can recognize when scaling and root planing should be completed in the general office and when it is reasonable to recommend extractions to patients with periodontal disease.
4. Gain an understanding of how to diagnose and treat peri-implantitis.
5. Learn skills to communicate effectively with patients about periodontal disease.
6. Learn how to establish appropriate maintenance protocols

December 8, 2018 (Saturday)

COCC Dental Assisting Program Update & Request For Volunteers Lynn Murray,

Dental Assisting Program Director

Dear Valued Dentists,

The COCC's Dental Assisting Program is starting a new year! We are in need of dentist volunteers for our Friday Dental Clinic. These clinics offer DA students assisting experience while providing needed dental services to low income individuals in Central Oregon. A big **THANK YOU** to all of our past volunteers! Would you like to volunteer this year too? We would also like to welcome new volunteers. Faculty, students and patients are very appreciative of your time and expertise!

We have had excellent feedback from volunteer dentists about our 2 dentist clinics. They say they really enjoy working with another dentist, and connecting with their peers. Our hope is to offer many clinics with 2 dentists.

We have organized Clinic Dates early to offer you the earliest possible notice, and with the hope that dentists interested in volunteering with us can find a date that works well for them. The first patient is seen at 8:00 AM the clinic runs until about 2:00 PM on Fridays. The Clinic dates for the 2017-2018 academic year are as follows:

January 11, 2019
February 8, 2019
March 8, 2019
April 12, 2019
April 26, 2019
May 3, 2019
May 17, 2019
May 31, 2019

We would also like to offer these at risk patients oral hygiene services. If you know of a hygienist who might be open to volunteering, **please** forward my contact info below to them.

My contact information is Lynn Murray at 541-383-7574, or you can e-mail me at lmurray@cocc.edu, to schedule your best date! Feel free to leave a phone message with the date or dates you like and I will return your call. I look forward to working with you all!

6 hours of Continuing Education credits are offered to our valued volunteers.

Warm Regards, Lynn

Dental Assistant Shortage Lynn Murray, Dental Assisting Program Director

Dear Central Oregon Dentists,

The Dental Assisting Program at COCC understands and empathizes with your need for qualified EFDA dental assistants. We are here for you. Our goal is to supply the Central Oregon area with these needed assistants. However, due to the good economy, enrollment is down. This is true not only for COCC (in all Allied Health programs), but for dental assisting programs throughout Oregon. In addition, the need for qualified assistants is not limited to Oregon, but it has been cited across the U.S.

COCC would like to assist Central Oregon dentists by increasing enrollment in the Dental Assisting Program and has been working tirelessly to do so. We would like to ask for your help in filling the Program to enable us to provide the necessary assistants to your practices.

One way would be very simply, to post an 8"x11" poster in your offices. This is a professionally done recruitment poster COCC has created. The objective being that your patients see it and realize dental assisting might just be the profession for them, or for someone they know. Our faculty will be bringing posters to area offices in the next 3-4 weeks, please be open to placing one in your office.

There are two other thoughts that dentists and office managers have discussed with me to help fill the need for assistants. First, if dentists find a person with a personality that would mesh well with their team, the dentist would recommend they attend the DA Program prior to hiring them. Secondly, that dentists offer a scholarship to a potential dental assisting student. The idea of providing a scholarship with the requirement of employment for a certain amount of time in a particular office, was conveyed as well. These are all good ideas. We appreciate you partnering with COCC's Dental Assisting Program to help us help you!

All the best to you!

Lynn

Death Notice

Charles "Duke" Aldridge, DDS, MBA

Feb. 4, 1960 – Nov. 2, 2018

Visit www.bairdfh.com to share condolences and sign Guest Book

Kemple Memorial Children's Dental Clinic News for November 2018 Suzanne Browning

Special thanks to all volunteer dentists that donated services to Kemple Clinic. We could not carry out our efforts without the donation of time, consultation, uncompensated treatments and support from these

generous dental professionals. *The following is the THANK YOU that appeared in the Bend Bulletin last month (for October In-Kind services):*

In our effort to provide dental care to children in Central Oregon who can't afford it, the Kemple Memorial Children's Dental Clinic wishes to thank the following dentists for their volunteered services in October 2018.

VOLUNTEER DENTIST LIST IN THEIR OWN OFFICES IN OCTOBER 2018

Dr. Jared Anderson	Dr. Jeff Timm
Dr. Ben Bryan	Dr. Garrett Welch
Dr. Elise Burrus	Dr. Jonathan Yang
Dr. Edward Clark	VOLUNTEER DENTAL PROFESSIONALS
Dr. Kevin Coombe	Cindy Baumgardner, RDH
Dr. Benjamin Grieb	Dawn Bailey RDH
Dr. Jay Gronemyer	Darla Thompson, RDH
Dr. Brad Hester	Elizabeth Gordon, RDH
Dr. Mark Jensen	Heidi Ewing, RDH
Dr. Gregg Jones	Jake Paltzer
Dr. Roxane Kotzin	Jennifer Stenkamp
Dr. Jean Martin	Jo Van Buren, RDH
Dr. Maureen Porter	Kali Hinrichs, RDH
Dr. Zack Porter	Marna Duncan RDH
Dr. Tom Rheuben	Dr. Richard Fixott
Dr. Mehdi Salari	

At the Kemple Memorial Children's Dental Clinic, our mission is to improve the health and well-being of children in Central Oregon by facilitating critical preventative, educational, and dental treatment services for children whose families cannot access basic dental care. We do this through our dental clinic facility screen and seal program events at local schools and community partner organization venues with subsequent follow-up and referrals to volunteer dental professionals as needed. We provide portable preventative dental services to children and young adults regardless of insurability at various convenient locations. We advocate for all children needing timely, high-quality dental care.

Now that most of the school-based screen and seal events are behind us, we would like to thank the many volunteer hygienists, dental assistants and others who have supported us this Fall. We cannot complete the 20+ events without the support of these folks. We list them each month in the BendBulletin advertisement, but it is important to give additional special recognition to this group of folks – they have our gratitude for all their work during the entire year.

KEMPLE CLINIC CELEBRATES 20 YEARS OF SERVICE – The following article (click on link) was published on Nov 20, 2018 in the Bend Nest – Parenting Magazine. It is a nice piece and recognizes all the work the dental volunteers contribute to the children and young adults in Central Oregon.

<https://www.bendsource.com/bend/creating-smiles-for-20-years/Content?oid=8578368&fbclid=IwAR1GwPxtdCMCoHrL2TvrEHsmCRQp9QAFqe7qTR37daljot3aPnXrpD-xho>

Annual Appeal letters have been mailed throughout Central Oregon: Special thanks to those of you who are planning to donate to our annual fundraising effort. All dentist offices received our fundraising letter. Several donations have been already been received and we thank you in advance for your continued support. **This is the only Kemple fundraising letter that goes out to the community at large.** Monetary donations and Brighter Smiles efforts are our primary source of income beyond grant funding requests. EACH OF YOU HAVE RECEIVED THE 20th BIRTHDAY CARD in the mail... feel free to post it in your offices. If you want additional copies and donation return envelopes for your

offices through the end of the year, please let us know and we will get you more. Thanks again for your encouragement and support.

Kemple Clinic is still looking for a Cavitron to replace our 20 yr old unit. If you have any sources, please advise.

We thank Willamette Dental for two slightly used Ultrasonic Scalers. Toothbrush kits donated by Advantage Dental, Capitol Dental, MODA, Willamette Dental and the Central Oregon Oral Health Work Group are a tremendous help during our high-paced, high yield activity this Fall and upcoming Winter months.

Our community partner, Volunteers In Medicine, is looking for an Expanded Practice Hygienist to provide adult preventative dental care in our clinic Facility. As many of you know, VIM uses our facility to treat VIM patients two Mondays per month. The EXP hygienist is a paid position. We strongly support VIM's efforts, realizing a key "side benefit" as adults treated in our clinic facility find out more about the children/young adult dental clinic and spread the word among the uninsured/underserved communities. If you know of someone that is interested in this part time position, have them contact Jennifer Fuller at VIM 541-585-9003 or clinic.manager@vim-cascades.org

December 2018

**Common Sense, Practical, Practice Management
Advice for Dental Professionals
The All-Knowing, All-Seeing, GURU of Everything Dental & Mental**

Dear Dr. Rupert

(Please submit your questions, comments or disgruntled remarks to DearDrRupert@yahoo.com)

Dear Dr. Rupert,

I'm going berserk! I have talked till I'm blue in the face about the safety record of x-rays and the value and importance of diagnostic x-rays ... yet a portion of my patient base still is refusing them and wanting me to continue cleaning their teeth and doing their check-up exams without current x-rays. I don't understand why patients make their appointments, come in to our office and then NOT do what I am recommending for them?

Do you have any tools, skills or tricks that you use in your practice to educate your patients about the importance of routine diagnostic x-rays to complement their recall exams and cleanings?

Signed, Just Want to Adhere to the Standard of Care

Dear Just Want to Adhere to the Standard of Care,

You're wasting your time trying to educate your patients about the safety and value of diagnostic x-rays. What I have found works best in my office is guilt and ridicule.

I stopped talking about the science of radiation safety and all the important data and information contained in x-rays a long time ago. It didn't seem to adequately educate or change the mindset of the patients who were set against them in the first place.

What has worked very successfully for me and our Hygienists in recent years is the following script:

Patient: "I don't want any x-rays today. Nothing is hurting and I've had a whole bunch of x-rays lately and don't want any more."

Hygienist or Assistant: "Have you recently had any blood work done to rule out any systemic problems ... even though nothing was hurting?"

Patient: "Yes. My doctor did those for me not that long ago. Everything checked out OK."

Hygienist or Assistant: "Have you recently had a urine test, to rule out any possible systemic problems ... even though nothing is currently hurting or bothering you?"

Patient: "Yes. My doctor ordered those recently as well."

Hygienist or Assistant: "Have you by chance had your colonoscopy to rule out possible colorectal polyps, cancer or problems?"

Patient: "Yes ... as soon as I turned 50!"

Hygienist or Assistant: "So let me get this straight. Even though nothing was hurting ... you consented to peeing in a cup, being poked in the arm with a needle, fasting for a day and drinking a potion that glued your butt to the toilet for 8 hours and then had a 2 foot long tube shoved up your rear end; just to make sure everything was OK ... but biting down on a few digital dental x-rays to rule out dental disease is where you draw the line?"

Patient: "Hmmm! I see your point. Let's get them over with."

Hygienist or Assistant: "I'm glad you consented. Now we don't have to use our new rectal sensor to see in between the teeth and fillings from the other end."

I know it's a little crude and rude, but believe me ... it's 100% effective and guaranteed when you follow my script word-for-word. No sane person would consent to all that fasting, medicine to flush out everything in their intestine, risks associated with sedation and a two-foot long tube going where the sun don't shine ... but suddenly draw the line when it comes to 4 bitewings.

Glad I could help,

Dr. Rupert

Dental Society Classified Ads

You are welcome to email anything dental that you might want to sell/trade or buy.

No charge to Dental Society members for listings. [Limited to 2-4 lines.]

\$15/issue charge to non-Dental Society Dentists wishing to post items. [Limited to 2-4 lines.]

PRACTICE OPPORTUNITY IN BEND

Bend Dental Practice for Sale:

No insurance contracts, no roller skates, minimal hygiene hours, it's fun here.

I do ~a thousand hours of client care annually collecting, with lab, \$700,000+: increase **Dr** and hygiene hours at will, add select insurance contracts, you could double collections.

Do or don't include current accounts receivable.

I love what I do, and ... it's time to go play in the forest.

This practice is simple, fun and rewarding. I am happy to teach the pieces of how/why it works so well ... with a small staff..

We focus on health care and on Fixed Prosth. from diagnosis through any implant care to complex reconstruction.

Would rather this jewel land in the hands of an already local Dr. than import one more to our mix ;~}.

Am happy to work/mentor as requested until purchaser is and feels competent/confident ...

I bet I could produce/buy the practice for you by the time you are tired of having me about.

Let's talk about it: Tad 541-410-0285 tad@mastersofdentistry.net

1800 sq./ft. stand-alone office building available for lease/rent located at 551 NE Greenwood Ave. in Bend. Highly usable, versatile space could be used for various business types (previously a dental office). Parking lot included. If interested, please contact 949-228-7299 or 541-480-7048.

LOCUM TENUM FOR YOUR PRACTICE: Temporary coverage in your office with your staff at any level you desire. Dr. Bill Guy 541-788-4844.
