

Employee Benefits for Law Firms

Leaders in Providing Employee Benefits

Risk Point Insurance Advisors understands the issues that your company must manage in order to remain competitive in today's marketplace. Our clients face an ever-growing challenge to attract, retain and motivate the top talent they need to manage and grow their business. Risk Point provides a comprehensive range of benefits, services and innovative solutions that enable our clients to design plans, set goals, and manage employee benefit programs.

Risk Point has steadily built a reputation as one of the most respected commercial insurance agencies in the Pacific Northwest. We offer all the personal attention to our clients – which they expect and deserve.

OUR SOLUTIONS ARE PROVEN

Developing the right employee benefit package is easier when you partner with an organization that provides analytic detail, hands-on service and visionary thinking about improving your organization's overall health. Our experienced staff will help you understand the latest industry trends and how current issues can affect your benefit offering. Whether your biggest challenge is structuring a benefit plan to meet the needs of a diverse workforce, educating employees about your benefit plan or looking for cost-effective alternatives, we will provide you with innovative solutions.

The remedy for rising healthcare costs is not as simple as negotiating a lower premium. Employee engagement, health and productivity improvement, and responding to variances in the cost and quality of care are all critical components of designing a successful offering.

Risk Point goes beyond the group benefits and offers individual life and disability benefits for Attorneys. The greatest value we provide is the analysis to help your employees and partners make a good business decision, not just an insurance or premium decision. Ask about how we can assist in the analysis and implementation of a sound plan to protect your most valued asset, your income.
