President’s Message

Welcome Back! Thank you to those of you that took the time to come to our family BBQ. I thoroughly enjoyed seeing and talking to you and your families. If I did not make it over to you feel free to catch me at one of the membership meetings this year! Many thanks go out to Wendy and her family for their hard work putting together a great event on a HOT summer evening.

I was asked by a fellow member last spring if I had a specific goal or intention for my presidency. What had driven me to become President? My answer was quick and simple; this is a way for me to contribute to my profession, in a sense do my part. In my life, I have been involved in both student government and various leadership roles. However, once I began my career in private practice I did not plan or anticipate pursuing a leadership role in dentistry. The transition was slow, my attendance at membership meetings grew into committee participation and the presidency became an extension of this participation. I believe we all bring unique skills and talents to our professional and personal lives. I encourage all of you to participate in whatever area you can. Our time is precious and valuable to each of us and our families so give what you are able to, you do have value and you do add value to our profession. Attend a meeting, volunteer for a committee, participate in dental action day, and participate in school educational programs. You all have gifts and talents to offer and our profession and our community will be better for it.

So as we head into our new business year consider what you can offer to our community and our profession. I believe the more involvement; the more successful and productive we will all be in our professional and personal lives. Thank you to all of you for what you have done in the past and are currently doing, take a moment, consider the possibilities of what “doing your part “may mean to you. I look forward to great year, see you in September.

Dr. Lisa Ellingsen

“Botulinum Toxin-A Therapies for the Dentist”
With Timothy A Hess, DDS, MAGD
Affiliate Faculty Oral Medicine
University of Washington

DESCRIPTION OF COURSE CONTENT
Botulinum Toxin-A (BTX-A) utilization by health care professionals is increasing. The dentist’s expert knowledge of the head and neck anatomy make them an ideal provider of BTX-A therapies. This course will focus on aesthetic and therapeutic procedures that can be easily incorporated into any dental practice. This presentation will be didactic and include demonstrations of BTX-A administration as well as hands-on participation by attendees.

THE EDUCATIONAL OBJECTIVES
Educational Objectives will focus on but not limited to:
1) Introduction to BTX-A aesthetic procedures and therapeutic procedures of the head and neck performed by dentists
2) Preparation and administration of BTX-A
3) Evaluation, communication and documentation of BTX-A treatments to achieve clinical success and meet patient expectations.

ADDITIONAL INFORMATION
The course is recommended for dentists wishing to implement Botulinum Toxin-A aesthetic or therapeutic procedures into their practices. Dentists are encouraged to bring a staff member that assists in clinical procedures and will be involved with BTX-A treatments to attend lecture and hands-on participation.
Participants should bring: loupes, proof of malpractice coverage and 1 patient for administration of BTX-A.

EDUCATIONAL OBJECTIVES
Educational Objectives will focus on but not limited to:
1) Introduction to BTX-A aesthetic procedures and therapeutic procedures of the head and neck performed by dentists
2) Preparation and administration of BTX-A
3) Evaluation, communication and documentation of BTX-A treatments to achieve clinical success and meet patient expectations.

Registration Fees
COST: $1,250.00 Course plus BTX-A
Xeomin® BTX-A $240.00 per 50 Units or
Xeomin® BTX-A $450.00 per 100 Units (Recommended)
Staff Member: $250.00 Each
Lunch Included

A DENTAL GROUP COMPANY
2015 House of Delegates
September 17-19
Spokane, WA

DR. MARY SMITH EXPLAINS THE 2015 HOUSE OF DELEGATES

When I finished dental school, my father asked me what I intended to do for my profession. I thought that was a strange question. All I wanted was to get out of school and be left alone. Don’t I just go to work, fix teeth, get paid, and mind my own business?

“Oh no,” said my father, “other people have ideas about how you should do your job, where you work, when you work, how you will get paid, and how much you will pay to them.” I was mortified! Who were these people? How did this happen? Why didn’t someone warn me?

“...
Key bills important to dentistry

**SUPPORTED BY WSDA:**

**House Bill 1002: PASSED, SIGNED BY THE GOVERNOR**
Requires standalone dental insurance carriers to disclose the percentage of premium dollars spent on patient care through a loss ratio statement. Also prohibits insurance companies from denying same-day treatment for emergency conditions.

**Senate Bill 5606: PASSED, SIGNED BY GOVERNOR**
Clarified DGAC’s authority to determine what impressions dental hygienists and assistants can take. Extended license reciprocity to dental hygienists who have trained and practiced in Canada.

**OPPOSED BY WSDA:**

**House Bill 1514: DID NOT PASS**
Amended the existing definition of dentistry to allow non-dentists to influence treatment decisions.

**House Bill 1421, Senate Bill 5465: DID NOT PASS**
Created a licensed midlevel dental provider.

**House Bills 1441, 1027, Senate Bill 5159: DID NOT PASS**
Sanctioned the use of dental therapists on tribal lands. Allowed tribes to bill Medicaid for services provided by dental therapists.

Budget issues important to dentistry

**SUPPORTED BY WSDA:**

Loan repayment dollars – FUNDED, nearly $8 million for the biennium

Funding to increase RIDE enrollment – NOT FUNDED

**OPPOSED BY WSDA:**

B&O tax increase on services – NOT ADOPTED

Grassroots efforts

- More than 200 dentists and dental students had 110 meetings with legislators during WSDA’s annual Dental Action Day. Dentists also met with nearly 30 legislators as part of four mini-lobby days on issues important to dentistry.

- Nearly 100 dentists sent emails to their legislators asking them to oppose a proposed increase to the B&O service tax.

- More than 1,000 emails were sent to members of the House Health Care & Wellness Committee asking them to oppose efforts to alter the legal requirement that a dentist must own, operate and maintain a dental office.

- Budget writers received more than 100 emails from dentists asking that they increase funding to the loan repayment program.

- Legislators were also encouraged to oppose several midlevel provider proposals by more than 100 dentists.
About Heath

“I’m a Coeur D’Alene native, and I know a lot of Eastern Washington dentists because of my long association with Aurum Ceramics. Prior to that I graduated from the University of Idaho in 2002, traveled throughout Europe and studied its history, and went back to school to become a teacher. I taught for two years at Lake City High School in Coeur D’Alene. I loved working with the kids and the staff at the school. At Aurum, I really enjoyed being on the front lines and dealing with dentists. I had to have a much broader knowledge about how implants affected surrounding teeth, how teeth move, how bite and oral health can be related to sleep habits, and overall systemic health. It was always changing, and I was always learning new and exciting information.”

Local connection

“This is where I grew up, I have family and friends here, and I like the lifestyle in the area. It has a small town atmosphere, and that’s really who I am. I’m not a big city kind of guy. My immediate family gets together at least once a week, and I’ve grown up with my friends and been close with them for 25 years. The Inland Northwest is home to me because it fits my lifestyle, whether it’s waterskiing, swimming, or floating in the river, being in the water is one of my favorite things to do. I also love being out in the wilderness backpacking, camping, and skiing. Most of our winter weekends revolve around us being on the mountain somewhere.”

The move to WDIA

“I’m looking forward to being able to serve my clients from beginning to end, walking them through the process of looking at their overall portfolio and their family life, and helping them determine what needs to be covered. It’s an opportunity to be the go-to guy, to control the process and the outcome. I also like that I’ll be able to utilize my contacts in Eastern Washington and work with the people I’ve built good relationships with, and that this role keeps me close to my home and family.”

Spokane District Dental Society Foundation's
6th Annual Gala
February 20, 2015
6:00 p.m.
Grand Hotel

Join us for an evening of silent & live auctions, amazing food, wine and beer tasting, live entertainment and FUN!

Tickets $75/person
Wendy at 509.838.0436 or wendy@spokanеденталсociety.org

Join us for an evening to remember as the local dental community and area businesses come together for a very special cause. The money raised supports our many programs designed to promote improved oral health and increased opportunities of dental care to those in need throughout our community. The auction is one of our major sources of revenue each year and helps to sustain and expand our programs and improve access to care.

Your support is truly needed to make this benefit a success!
Dear SDDS Member,

On behalf of the Spokane District Dental Society Foundation Board, I invite you to participate in a very special event. The Spokane District Dental Society Foundation (SDDSF) will hold its fifth annual Gala at the Northern Quest Resort & Casino on Friday, April 17, 2015. We need your help to make it a success.

**What can you do?**

Please consider donating items which can be included in our live and silent auctions. Donations small and large are welcomed! A few great ideas include: themed gift baskets (wine, family fun night, spa, sports, etc.), tickets to sporting events, concerts and theme parks, golf vouchers, airline tickets, artworks, vacations, dinner gift certificates and services. NO donation is too small. The SDDSF is a 501(c)(3) non-profit organization. As such, your much needed donation is tax deductible! Monetary donations are always welcome and again, tax deductible.

**How do you donate?**

If you are able to contribute, please complete the attached form and send to:

Spokane District Dental Society Foundation  
23403 E Mission Ave, Suite 218  
Liberty Lake, WA 99019  
509.838.0436 T  
509.838.5040 F  
wendy@spokanedentalsociety.org

**Where does the money go?**

The money we raise supports our many programs designed to promote improved oral health and increased opportunities for dental care to those in need throughout our community. The auction is one of our major sources of revenue each year, and helps to sustain and expand our programs and improve access to care.

Your support is truly needed—and appreciated—to make this benefit a success!

Sincerely,

Nick Velis, DDS

Maintenance and retention of records
WAC 246-817-310 - The commission is amending and creating new sections to provide clarity in what should be contained in dental records. Treatment record requirements are necessary to evaluate standard of care for treatment provided. Record retention change from five years to six years is proposed.

Administration of anesthetic agents WAC 246-817-740, 745, 755, 760, and 772 - The commission is amending the monitoring and equipment requirements. Proposed changes to the sedation-related continuing education would clarify the requirement.

Delegation of duties WAC’s 246-817-510, 520, 525, 540, and 545 - The commission is amending delegation of dental duties for dental assistants and expanded function dental auxiliaries. Current rules need to be modified to clarify and amend practice standards to address concerns and confusion.

Delegation of duties to dental hygienists WAC 246-817-550 and 560 – The commission recently authorized to begin rule modifications to delegation of dental duties for dental hygienists. The Dental Collaboration Committee has been meeting to discuss several potential changes.

Prescribing, Distributing, and Dispensing Drugs – WAC 246-817-360
The commission determined that the current rule is unnecessary as statute provides clear authority for dentists to prescribe any controlled substance or legend drug necessary in the practice of dentistry. The rule has been repealed as of July 3, 2015.

Sexual misconduct WAC 246-817-460 – The commission clarified what forcible or nonconsensual acts are within the definition of sexual misconduct by a dental provider. The rule will be effective 31 days after filing.
The Washington State Agency Medical Directors Group has released a 2015 update to its guidelines on opioid use in pain management and held a conference on the issues on June 12. The materials presented at the conference are available at:

http://www.agencymeddirectors.wa.gov/evidencePrimaryPain.asp

The guidelines are available at:

http://www.agencymeddirectors.wa.gov/NewOpioidGuideline.asp

Conference lecturers elaborated on the reduction of opioid deaths and hospitalizations attributed to the improved prescribing practices in Washington, but also warned of the decreasing effectiveness of opioid use in the area of chronic pain and indicate in the guidelines that opioids should be used only when part of a multiple-mode approach. Dr. David Tauben offered that opioids as a uni-modal treatment for chronic pain will lead to poor patient outcomes.

Acute pain is addressed in the guidelines, which in part state: “In general, reserve opioids for acute pain resulting from severe injuries or medical conditions, surgical procedures, or when alternatives (Non-opioid Options) are ineffective or contraindicated. If opioids are prescribed, it should be at the lowest necessary dose and for the shortest duration (usually less than 14 days). The use of opioids for non-specific low back pain, headaches, and fibromyalgia is not supported by evidence.

Clinical Recommendations
1. Explore non-opioid alternatives for treating pain and restoring function, including early activation.
2. Prescribe opioids for dental pain only after complex dental procedures and at the lowest dose and duration.
3. Help the patient set reasonable expectations about his or her recovery, and educate the patient about the potential risks and side effects. Provide patient education on safekeeping of opioids, benzodiazepines, and other controlled substances.
4. Expect patients to improve in function and pain and resume their normal activities in a matter of days to weeks after an acute pain episode. Strongly consider re-evaluation for those who do not follow the normal course of recovery.
5. Check the state’s Prescription Monitoring Program (PMP) to ensure that the patient’s controlled substance history is consistent with the prescribing record. Prescribers may delegate the ability to query the PMP database to any licensed health care professional (Appendix C: How to use the Prescription Monitoring Program).” Acute and chronic dental pain will continue to be facets in the lives of Washington patients. Dental treatment of chronic pain is a complex issue and the use of opioids as a treatment modality is coming under growing scrutiny.
SDDS Foundation
Golf Tournament
Benefiting the I.D.E.A. Clinic
September 25th, 2015 Liberty Lake Golf Course

Please join us for a golf tournament to benefit the Spokane District Dental Society Foundation. The event will be "shamble" style, like a "scramble," only better!

There will be contests for the following categories, both men’s and women’s:
- Closest to the pin
- Longest drive
- Straightest drive

Plus a putting competition on the practice green as each team finishes.

- Friday, September 25
- Liberty Lake Golf Course
- $100 per person includes green fees, cart, lunch and prizes
- Assigned tee times are between 8:30am and 10:30am
- Drinks, appetizers and awards will follow

All proceeds from the tournament will benefit the SDDS Foundation and the I.D.E.A. Clinic.
