A GREAT WSP PROGRAM AT THE SAME GREAT FEES!

This lecture course is appropriate for dentists, hygienists, dental assistants and the entire dental team.

ADA CERP

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Western Society of Periodontology designates this activity for six (6) continuing education credits.

PROGNOSIS FOR THE PERIODONTAL COMPROMISED TOOTH
Thomas J. Kepic, D.D.S., M.S.D.

IMPROVE YOUR QUALITY OF HYGIENE CARE
Jodi Deming, RDH

FROM RISK TO RESULTS: PERIODONTAL INSTRUMENTATION FOR THE ADVANCED PRACTITIONER
Monica Monsantofils, BSDH, EPDH, PG Dip

“65 YEARS OF EXCELLENCE IN CONTINUING EDUCATION”
Jodi Deming, RDH

Jodi started practice as a dental hygienist in 1988. In the early 1990’s frustrated with the understanding of the etiology of periodontal disease became involved with biofilm research. At that time the term was rarely used in dentistry except in the context of dental unit waterlines. As a clinical research associate, Jodi was involved with biofilm growth and therapeutic product development evaluating the effect on dental biofilms.

Understanding biofilms, she developed a passion about non-surgical therapy, root morphology, and the results of thorough periodontal debridement. Jodi has worked 28 years mastering non-surgical periodontal therapy techniques and procedures. She currently works in both periodontic and prosthodontic practices.

Jodi is a national and international educator, clinician, and lecturer. She has pre-sented over a 150 lectures and workshops on advanced integration of ultrasonic and hand instrumentation.

Jodi has served as adjunct faculty at the University of Southern California, School of Dentistry, Department of Dental Hygiene and at Spear Education. She is a Friends of Hu-Friedy Thought Leader valued for her involvement with biofilm research, instru-
ment development and training. She is nationally recognized as an expert in endo-
scope and ultrasonic instrumentation.

Monica Monsantofils BSDH, EPDH, PG DIP

Monica received a dental hygiene degree from Portland Community College, Bachelor of Science in Dental Hygiene from Eastern Washington University and PG Diploma of Dental Sciences from King’s College London. Monica brings over 30 years of clinical experience in periodontal and general practices and 13 years of academic experience to the Division. Monica’s academic experience includes advanced instrumentation, community oral health and restorative functions. Monica’s research “Oral Impacts on Daily Performances and Use of Dental Services in Schoolchildren” was published in the International Journal of Pediatric Dentistry. Monica’s focus is to provide dental professionals with current concepts and evidence based research to assist in implementing effective and efficient evidence-based treatment protocols in their clinical practice.
